## **ANIMA BIOTECH TO PRESENT AT THE 2019 BIO INVESTOR FORUM**

BERNARDSVILLE, New Jersey, October 15, 2019 – Anima Biotech, the leader in the discovery of drugs that control mRNA translation, today announced the company will present at the 2019 BIO Investor Forum taking place in San Francisco, CA October 22 – 23, 2019.

Yochi Slonim, Co-founder and Chief Executive Officer of Anima Biotech, will provide an overview of the company's Translation Control Therapeutics technology for the discovery of small molecule drugs that control mRNA translation. He will be available for questions and one-on-one meetings with attendees registered for the conference.

Details regarding the company's presentation are as follows:

**Event:** 2019 BIO Investor Forum

**Date:** Tuesday, October 22, 2019

**Time:** 10:15 a.m. PDT

**Room:** Elizabethan C

**Venue:** Westin St. Francis Hotel, San Francisco, CA

### **About Anima Biotech**

Anima Biotech is advancing Translation Control Therapeutics, the first and only platform for the discovery of small molecule drugs that control mRNA translation as a new strategy against many diseases. With novel biology that monitors the translation of proteins and proprietary cloud-based analysis software, we identify drug candidates that modulate a target protein's production. We develop a pipeline across therapeutic areas and partner with Pharma for their targets including our \$1B+ collaboration with Lilly for the discovery and development of translation inhibitors of several targets. Our approach was further validated with 5 granted patents, 14 peer reviewed publications and 17 scientific collaborations. To learn more about us, visit <https://www.animabiotech.com>
