

ANIMA BIOTECH FEATURED AT THE 5th ANNUAL LSX WORLD CONGRESS

Anima CEO to Present Corporate Presentation and Participate in Panel Discussion

BERNARDSVILLE, New Jersey, February 4, 2019 – Anima Biotech, the leader in the discovery of drugs that specifically control mRNA translation, today announced that CEO Yochi Slonim will be presenting an overview of the company and its business and will be participating on a panel during the 5th Annual LSX World Congress, taking place in London, UK, February 5 – 6, 2019.

During the panel, Mr. Slonim will discuss Anima Biotech's agreement with Eli Lilly for the discovery and development of translation inhibitors for several target proteins using Anima's Translation Control Therapeutics platform. Specifically, he will discuss how the deal arose, how it was structured to benefit both parties and what key factors played into negotiating this win-win platform technology deal.

Details regarding the company presentation and panel are as follows:

Presentation:

Event: 5th Annual LSX World Congress

Date: February 5, 2019

Time: 12:00 p.m. GMT

Room: Premium Suite 2

Venue: 200 Aldersgate, St. Paul's, London

Panel:

Event: 5th Annual LSX World Congress

Title: Fireside Chat: Structuring a win-win platform technology deal

Date: February 5, 2019

Time: 11:00 a.m. GMT

Room: Private Dining

Venue: 200 Aldersgate, St. Paul's, London

About Anima Biotech

Anima Biotech is advancing Translation Control Therapeutics, the first platform for the discovery of small molecule drugs that specifically control mRNA translation as a new strategy against many diseases. With novel biology that monitors the translation of proteins and proprietary cloud based analysis software, we identify drug candidates that modulate a target protein's production. We develop a pipeline across therapeutic areas and partner with Pharma for their targets including our \$1B+ collaboration with Lilly for the discovery and development of translation inhibitors of several targets. Our approach was further validated with 5 granted patents, 14 peer reviewed publications and 17 scientific collaborations. To learn more about us, visit <https://www.animabiotech.com>.
